A Bibliography of Publications of Riccardo Fazio

Riccardo Fazio
Department of Mathematics, Computer Science,
Physical Sciences and Earth Sciences
University of Messina
Viale F. Stagno D'Alcontres 31, Messina 98166 Italy
Tel: +39 090 676 3064 FAX: +39 090 393502
E-mail: rfazio@unime.it (Internet)

March 18, 2024, Version 4.05

Abstract

This bibliography records publications of Riccardo Fazio. The BIB file is **rfazio.bib**. These files are available on internet from the URL: `http://mat521.unime.it/fazio`.

Appl., 1:30, 2021. Preprint available at the URL: `https://mat521.unime.it/~fazio/indexpre.html`.

Fazio:2021:NSF

[104] R. Fazio and A. Jannelli. A non-standard finite difference scheme for magneto-hydro-dynamics boundary layer flow of an incompressible fluid past a flat plate. *Math. Comput. Appl.*, 26:22, 2021. Preprint available at the URL: `https://mat521.unime.it/~fazio/indexpre.html`.

Fazio:2022:NIT

[105] R. Fazio. A non-iterative transformation method for boundary-layer with power-law viscosity for non-Newtonian fluids. *Calcolo*, 59:43, 2022. Preprint available at the URL: `https://mat521.unime.it/~fazio/indexpre.html`.

Fazio:2023:FBF

[106] R. Fazio. Free boundary formulation for two extended Blasius problems. *Int. J. Non-Linear Mech.*, 153:181–194, 2023.

Fazio:2024:MNP

[107] R. Fazio. *Metodi Numerici per Problemi di Evoluzione*. YouCanPrint, Lecce, 2024.

Donato:1988:WSC

[108] A. Donato and S. Giambó, editors. *Waves and stability in continuous media, Taormina, October 1987*, Commenda di Rende, Italy, 1988. Editel. Papers presented to the IVth biannual Meeting on Waves and Stability in Continuous Media held in Taormina (Italy), October 5–10, 1987.

Fusco:1991:NWD

[109] D. Fusco and A. Jeffrey, editors. *Nonlinear Waves and Dissipative Effects*, volume 227 of *Pitman research notes in mathematics series*, Harlow, Essex, 1991. Longman Scientific and Technical.

Ames:1991:CAM

[110] W. F. Ames and P. J. van der Houwen, editors. *Computational and applied mathematics, II : differential equations: selected and revised papers from the IMACS World Congress, Dublin, Ireland, July 1991*, Amsterdam, The Netherlands, 1991. North-Holland.

Engquist:1991:TIC

[111] Bjorn Engquist and Bertil Gustafsson. *Third International Conference on Hyperbolic Problems: theory, numerical methods and applications: proceedings, Uppsala, Sweden, June 11–15, 1990*. Chartwell-Bratt, Bromley, Kent, England, 1991. The two earlier conferences ... were held in St. Etienne, France, 1986 and Aachen, Germany, 1988.

Brezinski:1992:CAM

[112] C. Brezinski and U. Kulisch, editors. *Computational and applied mathematics, I: algorithms and theory: selected and revised papers from the IMACS 13th World Congress, Dublin, Ireland, July 1991*, Amsterdam, The Netherlands, 1992. North-Holland.

Ibragimov:1993:MGA

[113] N. Kh. Ibragimov, M. Torrisi, and A. Valenti, editors. *Modern group analysis: advanced analytical and computational methods in mathematical physics: proceedings of the international workshop, Acireale, Catania, Italy, October 27–31, 1992*. Kluwer, Amsterdam, 1993. Papers presented at the workshop on Modern Group Analysis, held at Catania in Sicily, Italy, 1992.

Oliveri:1993:NHP

[114] F. Oliveri and A. Donato, editors. *Nonlinear hyperbolic problems: theoretical, applied, and computational aspects: proceedings of the Fourth International Conference on Hyperbolic Problems, Taormina, Italy, April 3–8, 1992*, volume 43 of *Notes on numerical fluid mechanics*. Vieweg & Son, Braunschweig, Germany, 1993.

Ames:1994:IPI

[115] W. F. Ames. *IMACS '94: proceedings of the 14th IMACS World Congress on Computation and Applied Mathematics: July 11–15, 1994, Georgia Institute of Technology, Atlanta, Georgia, USA*. IMACS, Department of Computer Science, Rutgers University, New Brunswick, NJ, 1994. Three volumes.
